

Bluetooth Wall and Ceiling Speaker Packs

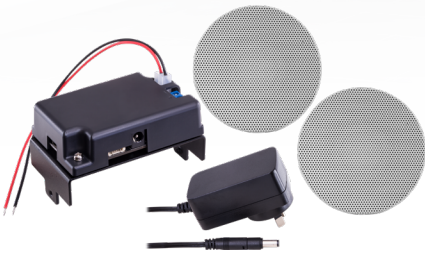

Two experts in their field bringing you the easiest and most reliable wireless audio solution.

All these kits feature a one-step installation - mount the speakers and power them - it's that easy! We've even included 10 metres of super-flat speaker cable to complete the installation!

The Bluetooth amplifier auto senses a Bluetooth sync to power on/off and not only can you control the output directly from your Bluetooth enabled source, like your phone, but you can also name each amplifier, so you know which one is the kitchen and which one is your patio speakers. This feature alone is what makes the resi-linx Bluetooth solution unique!

DOWNLIGHT SPEAKER PACK

RLBT400 — 20W Bluetooth Amp + 4" Ceiling speakers

Don't be deceived by its small size. Perfect for the bathroom or any small room where space is a premium and yet you need the sound to still pack a punch!

Starting out as an OEM for several high profile companies, today the resi-linx brand itself is known and respected by technicians and hobbyists all around the world. resi-linx is widely recognised as the leader of the distribution industry.

Direct from the USA, Earthquake's innovative audio technologies connect millions of people around the world with the sound solutions they need. They design, manufacture, and market high performance audio systems for use in home and audio-video systems.

IN-CEILING SPEAKER PACK

RLBT650 — 50W Bluetooth Amp + 6.5" Ceiling speakers

Bring high-quality audio to any small to medium room. The edgeless speakers blend seamlessly with any decor. Integrated treble and bass switch to customise your sound.

XL CEILING SPEAKER PACK

RLBT800 — 50W Bluetooth Amp + 8" Ceiling speakers

The bigger sibling of our RL-BT650 pack delivers clear and exceptional audio for day-to-day listening as well as the additional power for hosting parties!

OUTDOOR SPEAKER PACK

RLBT602 — 50W Bluetooth Amp + 6.5" weatherproof wall speakers

Need to entertain outdoors and need a package that has the power and yet has to withstand the elements? Then look no further. BBQs will never be the same!
